Entrants: *Kyushu University Information* (as of April 1, 2024), Student Affairs Department (as of October 1, 2024)

Total Capacity: General Regulations of Undergraduate Schools of Kyushu University,

General Regulations of Graduate Schools of Kyushu University (as of May 1, 2024)

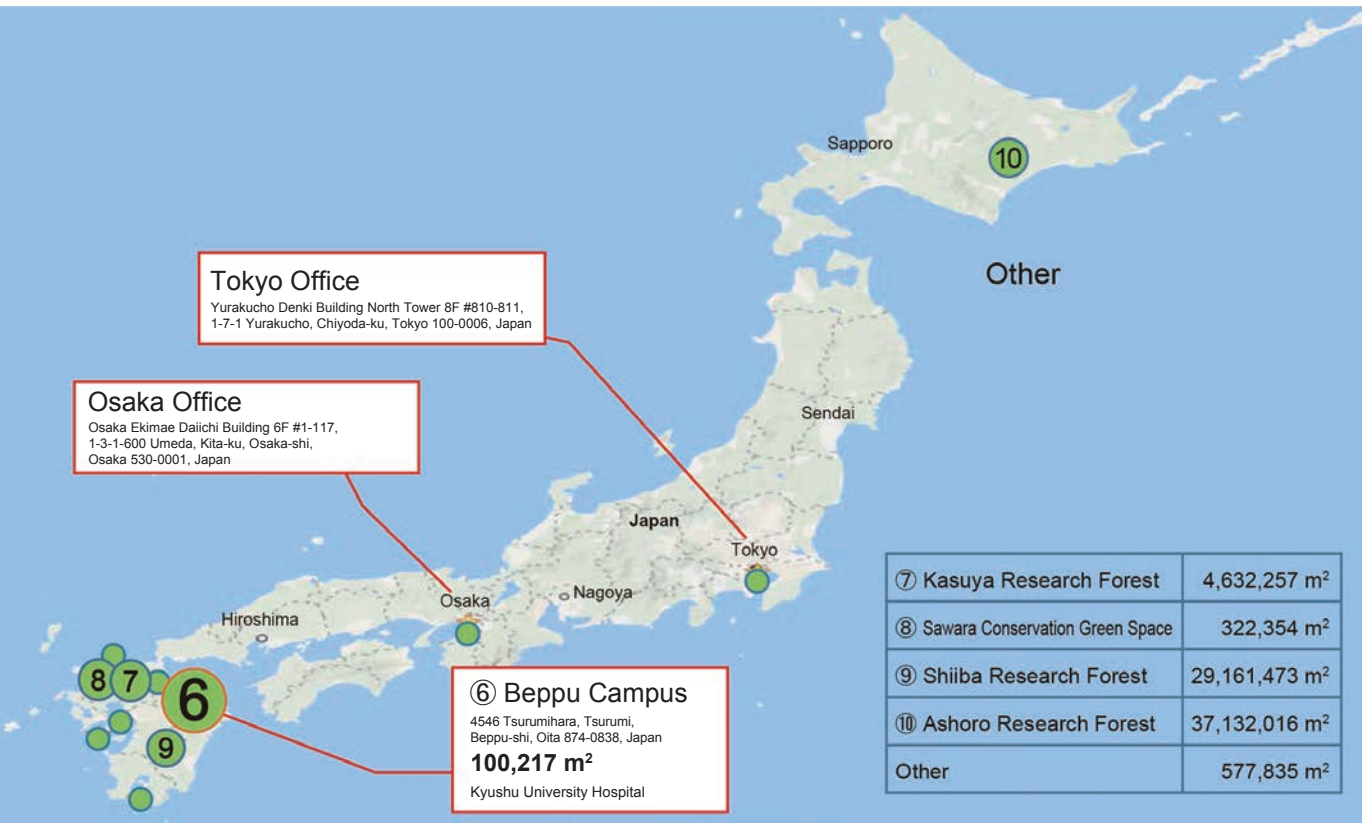

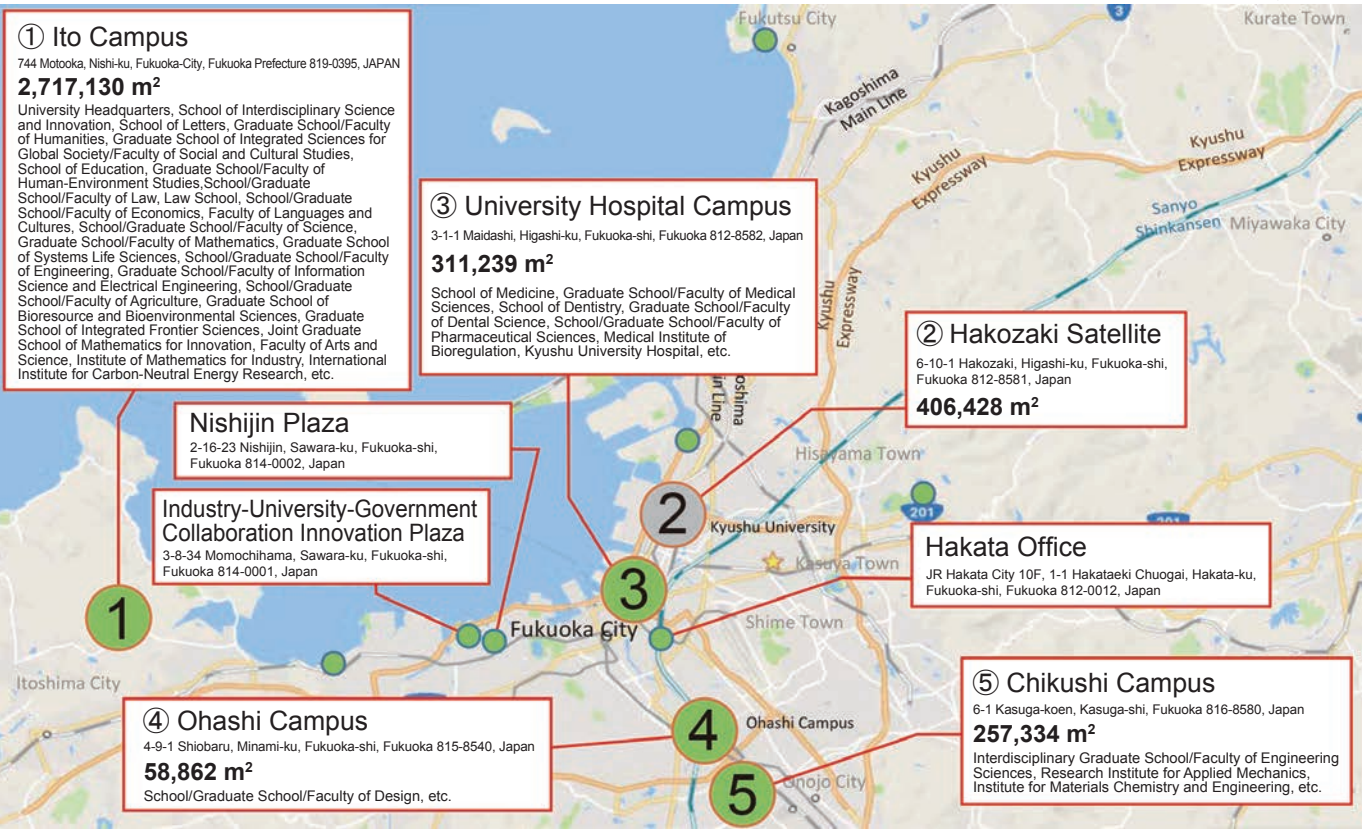

Number of Faculty and Staff Members, Students: National Institution for Academic Degrees and Quality Enhancement of Higher Education, "Basic University Information" <https://portal.niad.ac.jp/ptrt/table.html> (as of October, 2024)

1-2. Main Campuses

Total campus area: 75,677,145 m²

● Main Campuses
 ● Satellite

● University Farm, University Research Forests, etc.
 (as of May 1, 2024)

- Shiiba Research Forest includes Hitoyoshi Experimental Station and lodgings.
- Ashoro Research Forest includes Ashoro Research Forest lodgings.
- “Other” includes the Amakusa Marine Biological Laboratory, the Institute of Seismology and Volcanology, the Fishery Research Laboratory, the Entomological Laboratory, the School of Agriculture Experimental Farm, the Kuju Agricultural Research Center, etc.
- In FY2021, Kyushu University Farm was relocated to the Ito Campus.

• According to “Financial Analysis Classification of National University Corporations” conducted by the National University Corporation Evaluation Committee, Japanese national universities in Group A (13 universities) (*1) and RU11 (Research University 11) (*2) have been defined as the Top 14 universities, and they are ranked in that order.

• Top 14 universities: Hokkaido University, Tohoku University, University of Tsukuba, Chiba University, The University of Tokyo, Tokyo Institute of Technology, Niigata University, Nagoya University, Kyoto University, Osaka University, Kobe University, Okayama University, Hiroshima University, and Kyushu University (ordered by university number).

(*1) Group A: National University Corporations with an enrollment capacity over 10,000 students, with 10 or more schools. (Only student enrollment capacity is considered for universities employing academic schools, colleges, and similar).

(*2) RU11 (Research University 11) is a consortium that aims to develop academia via 11 universities: Hokkaido University, Tohoku University, University of Tsukuba, The University of Tokyo, Waseda University, Keio University, Tokyo Institute of Technology, Nagoya University, Kyoto University, Osaka University, and Kyushu University. RU11 is composed of both national and private universities.

(*3) For the data on Tokyo Institute of Technology in the “Comparisons with Other Universities” section, information used was before Tokyo Institute of Technology and Tokyo Medical and Dental University merged to form Institute of Science Tokyo in October 2024.

(2022)

• Viewpoint of Rankings (Quoted from Source)

There are Bachelor's degrees for undergraduates, Master's degrees for completed master's programs, and Doctorates for completed doctoral programs.

This ranking is based on the number of doctoral degrees awarded.

There are two types of doctoral degrees: a Doctorate and a Dissertation Ph. D.

* Doctorate = Upon graduation from an undergraduate program, students usually enroll in a graduate school for a period of 5 years (2 years for a master's degree and 3 years for a doctoral degree) to acquire the necessary credits. After receiving research guidance, the student submits a doctoral dissertation and undergoes an examination to obtain the degree.

* Dissertation Ph. D = A degree that can be obtained without enrollment in a graduate school, only if the applicant has passed the examination of a doctoral dissertation and has been confirmed to have academic ability equivalent or superior to that of a person who has completed a doctoral program. It is intended for those who wish to pursue a doctoral degree while working.

• Viewpoint of Rankings (Quoted from Source)

In July of 2023, surveys were sent to the presidents of 780 national, public and private universities. The opinions received from 564 university presidents by late January of 2024 were tallied up. In the survey, respondents were asked to name up to 6 universities for each of the following: "Educational systems and achievements," "Research systems and achievements," and "Innovative entrance examination selection (general, comprehensive, school recommendation)." "Comprehensive Focus" is the sum of data from both fields: education and research.

By Daigaku Tsushin (2023). Out of about 2,000 college preparatory high schools which were surveyed nationwide, 645 schools responded. Using categories such as, "universities with high quality of education", high school guidance counselors were asked to narrow down their top 5 schools and rank them on a scale of 1 to 5, giving the highest-ranking school 5 points.

By Daigaku Tsushin. A nationwide survey of working adults was conducted, ranking universities by category. The survey period was in 2023. There were 1,000 respondents and the survey targeted company employees and public officials who had graduated from university. The survey was conducted without any regional bias and the ratio of men to women respondents was roughly 1 to 1. Respondents were requested to rank 3 universities, with 3 points given to the top-ranked university, 2 points to the second, and 1 point to the third, for each of the following lists: 3 Universities Throughout Japan and 3 Universities in Local or Surrounding Areas.

Using the database of Tokyo Shoko Research, Ltd., containing information on 4,000,000 companies (as of July, 2023), we extracted and collated the disclosed data on the university from which the company representative (including sole proprietors) had graduated. If the same individual is employed by multiple companies, we selected the firm with the highest revenues and excluded overlapping firms from collation. The figures may include representatives who graduated from graduate schools.
