Interactive Fact Book: Graph/Data Download Instructions

(English Version URL: <https://www3.ir.kyushu-u.ac.jp/en/factbook/factbook-online/>)

1. Using Filter Functions (If Available): You can download data based on your filter settings. Set filters as needed before downloading.

2. Click the icon in the bottom-right corner of the graph/chart.

- Downloading may not be possible depending on your browser.
- Recommended browsers: Edge, Chrome, Safari

3. Select your preferred download format and proceed to output the graph or data.

About Download Formats:

- Image: Outputs the portion currently visible on your monitor as an image file.
- Crosstab: Outputs underlying data for the graph in Excel or CSV format. (Excel format: Vertical data layout. CSV format: Horizontal data layout.)
- PDF: Outputs the graph image in PDF format. (You can select which sheet(s) to output).
- PowerPoint: Outputs the graph image in PowerPoint format. (You can select which sheet(s) to output).
- Tableau Workbook: Outputs a Tableau file with the ".twbx" extension. (This file may not open if Tableau is not installed on your system).
