

1. Overview and Comparisons with Other Universities

1-1. Overview of Kyushu University

1-1-1. Composition of Schools and Faculties

Schools (12)	Graduate Schools (19)	Graduate Schools: Faculties (16)
School of Interdisciplinary Science and Innovation	Graduate School of Humanities	Faculty of Humanities
School of Letters	Graduate School of Integrated Sciences for Global Society	Faculty of Social and Cultural Studies
School of Education	Graduate School of Human-Environment Studies	Faculty of Human-Environment Studies
School of Law	Graduate School of Law	Faculty of Law
School of Economics	Law School (Professional Graduate School)	Faculty of Economics
School of Science	Graduate School of Economics	Faculty of Languages and Cultures
School of Medicine	Graduate School of Science	Faculty of Science
School of Dentistry	Graduate School of Mathematics	Faculty of Mathematics
School of Pharmaceutical Sciences	Graduate School of Systems Life Sciences	Faculty of Medical Sciences
School of Engineering	Graduate School of Medical Sciences	Faculty of Dental Science
School of Design	Graduate School of Dental Science	Faculty of Pharmaceutical Sciences
School of Agriculture	Graduate School of Pharmaceutical Sciences	Faculty of Engineering
	Graduate School of Engineering	Faculty of Design
	Graduate School of Design	Faculty of Information Science and Electrical Engineering
	Graduate School of Information Science and Electrical Engineering	Faculty of Engineering Sciences
	Interdisciplinary Graduate School of Engineering Sciences	Faculty of Agriculture
	Graduate School of Bioresource and Bioenvironmental Sciences	
	Graduate School of Integrated Frontier Sciences	
	Joint Graduate School of Mathematics for Innovation	
Faculty of Arts and Science *1		
Institute for Advanced Study		
Research Institutes (4)		
Medical Institute of Bioregulation *2, Research Institute for Applied Mechanics *2, Institute for Materials Chemistry and Engineering *2, Institute of Mathematics for Industry *2		
International Institute: International Institute for Carbon-Neutral Energy Research		
Kyushu University Hospital		
University Library		
Research Institute for Information Technology *2		
Kyushu University Platform of Inter-/Transdisciplinary Energy Research		
Kyushu University Institute for Asian and Oceanian Studies		

*1 Indicates facilities certified as a Joint usage/ education center. *2 Indicates facilities certified as a Joint usage/ research center.

• The numbers in brackets represent university faculties, postgraduate research institutes, graduate schools and affiliated research laboratories.

1-2. Main Campuses

● Main Campuses
 ● Satellite

● University Farm, University Research Forests, etc.

Total campus area: 75,711,776 m²

- Shiiba Research Forest includes Hitoyoshi Experimental Station and lodgings
- Ashoro Research Forest includes Ashoro Research Forest lodgings
- "Other" includes the Amakusa Marine Biological Laboratory, the Institute of Seismology and Volcanology, the Fishery Research Laboratory, the Entomological Laboratory, the School of Agriculture Experimental Farm, the Kuju Agricultural Research Center, etc.
- In 2020, Kyushu University Farm was relocated to the Ito Campus.

(2020)

* According to "classification based on financial analysis of national university corporations" conducted by the National University Corporation Evaluation Committee, Japanese national universities in Group A (*1) and RU11 (Research University 11) (*2) have been defined as the Top 14 universities and they are ranked in that order.

* Top 14 universities: Hokkaido University, Tohoku University, University of Tsukuba, Chiba University, The University of Tokyo, Tokyo Institute of Technology, Niigata University, Nagoya University, Kyoto University, Osaka University, Kobe University, Okayama University, Hiroshima University, and Kyushu University (ordered by university number).

(*1) Group A: National University Corporations with an enrollment capacity over 10,000 students, with 10 or more schools. (Only student enrollment capacity is considered for universities employing academic schools, colleges, and similar).

(*2) RU11 (Research University 11) is a consortium aiming to develop scholarship in 11 Japanese universities: Hokkaido University, Tohoku University, University of Tsukuba, The University of Tokyo, Waseda University, Keio University, Tokyo Institute of Technology, Nagoya University, Kyoto University, Osaka University, and Kyushu University.

• Perspectives on Rankings (Quoted from Source)

There are Bachelor's degrees for undergraduates, Master's degrees for completed master's programs, and Doctorates for completed doctoral programs. This ranking is based on the number of doctoral degrees awarded.

* Doctoral degree = Upon graduation from an undergraduate program, students usually enroll in a graduate school for a period of five years (2 years for a master's degree and 3 years for a doctoral degree) to acquire the necessary credits. After receiving research guidance, the student submits a doctoral dissertation and undergoes an examination to obtain the degree.

Index Evaluation: Index Total from Books, Accepted, Lending, and Library Fee

• Perspectives on Rankings (Quoted from Source)

Survey were sent to head librarians of 766 private universities across the country in October 2021. 737 replies received by the end of January 2022 were consolidated. Figures for the number of books provided, incorporated and borrowed, and library expenses per student is indexed as 100. The index evaluation of the overall ranking is the sum of the indexes for each item, with the highest value expressed as 100. However this does not include universities with less than 2000 students, or universities that have been established for less than 4 years. Students from junior colleges and other schools are also included.

Library expenses are calculated by adding the total cost of materials and other library expenses.

・ Perspectives on Rankings (Quoted from Source)

The companies listed above were selected from the Mynavi/Nikkei 2022 Ranking of Popular Employers for University Graduates. The data refers to a joint survey conducted by Japanese financial news outlet Nikkei Shimbun, Inc. and Mynavi Corp., which offers information services in various fields, from job-seeking to HR and lifestyle support. This nationwide survey, conducted on third-year university students and first-year graduate students expecting to graduate in March of 2022, received 41,093 valid responses. The popular employer ranking was tallied from the number of liberal arts and sciences graduates employed by leading companies (excluding some) in 2021 (taken from a survey conducted by Daigaku Tsushin). Some rankings may include group companies. Data for the University of Tokyo is based on the University of Tokyo Newspaper, No. 2966, and Kyoto University's data is based on Kyoto University Newspaper, No. 2665 (Both figures are for known data only. Some of the data used by Kyoto University was officially announced by the university). An asterisk (*) next to the university name indicates that only Bachelor degree holders are counted, not Master's degree holders. Depending on the university, some faculties and graduate schools may be excluded.

• Perspectives on Rankings

In October of 2021, surveys were sent to the presidents of 775 national, public and private universities. The opinions received from 560 university presidents by late January were summarized. The survey asked respondents to list the names of up to six universities by their systems and achievements in each of two fields: Education and Research. "Overall" is the sum of data from both of these fields.

• Perspectives on Rankings

Taken from a survey conducted by Daigaku Tsushin in 2021. A nationwide survey of adults was conducted, ranking universities by category. The 1,000 targeted respondents were company employees or public servants who had graduated from university. The survey was conducted without any regional bias, and the ratio of man and woman respondents was 1:1. They were asked to rank the top three universities throughout Japan, and the top three from the area in which they lived or the surrounding region. The answers were then scored in order of listing, with 3 points awarded for the first, 2 points awarded for the second, and 1 point awarded for the third-highest ranking.

• Perspectives on Rankings

Taken from a survey conducted by Daigaku Tsushin (2021). Out of about 2,000 college preparatory high schools who were surveyed nationwide, 739 schools responded. Using categories such as, "universities that are good at looking after students", high school guidance counselors were asked to narrow down their top 5 schools and rank them on a scale of 1 to 5, giving the highest-ranking school 5 points.

• Perspectives on Rankings

Using the database of Tokyo Shoko Research, Ltd., containing information on 4,000,000 companies (as of July, 2021), we extracted and collated the disclosed data on the university from which the company representative (including sole proprietors) had graduated. For certain listed companies, we used only the Tokyo Stock Exchange. If the same individual is employed by multiple companies, we selected the firm with the highest revenues and excluded overlapping firms from collation. If the university had undergone a name change or a consolidation, the current university name was used. The figures may include representatives who graduated from graduate schools.
