

Kyushu University Global Engagement Map

User Guide

I . Basic Function

The screenshot shows the Kyushu University Global Engagement Map interface. The map displays the number of co-authored publications per country/region, with a color scale from (Low) to (High). The interface includes a search bar, a zoom control panel, a country/region selection dropdown, a list of countries/regions, and a download/share section.

Search country/region

Choose country/region (multiple)

Click to highlight

From top to bottom:

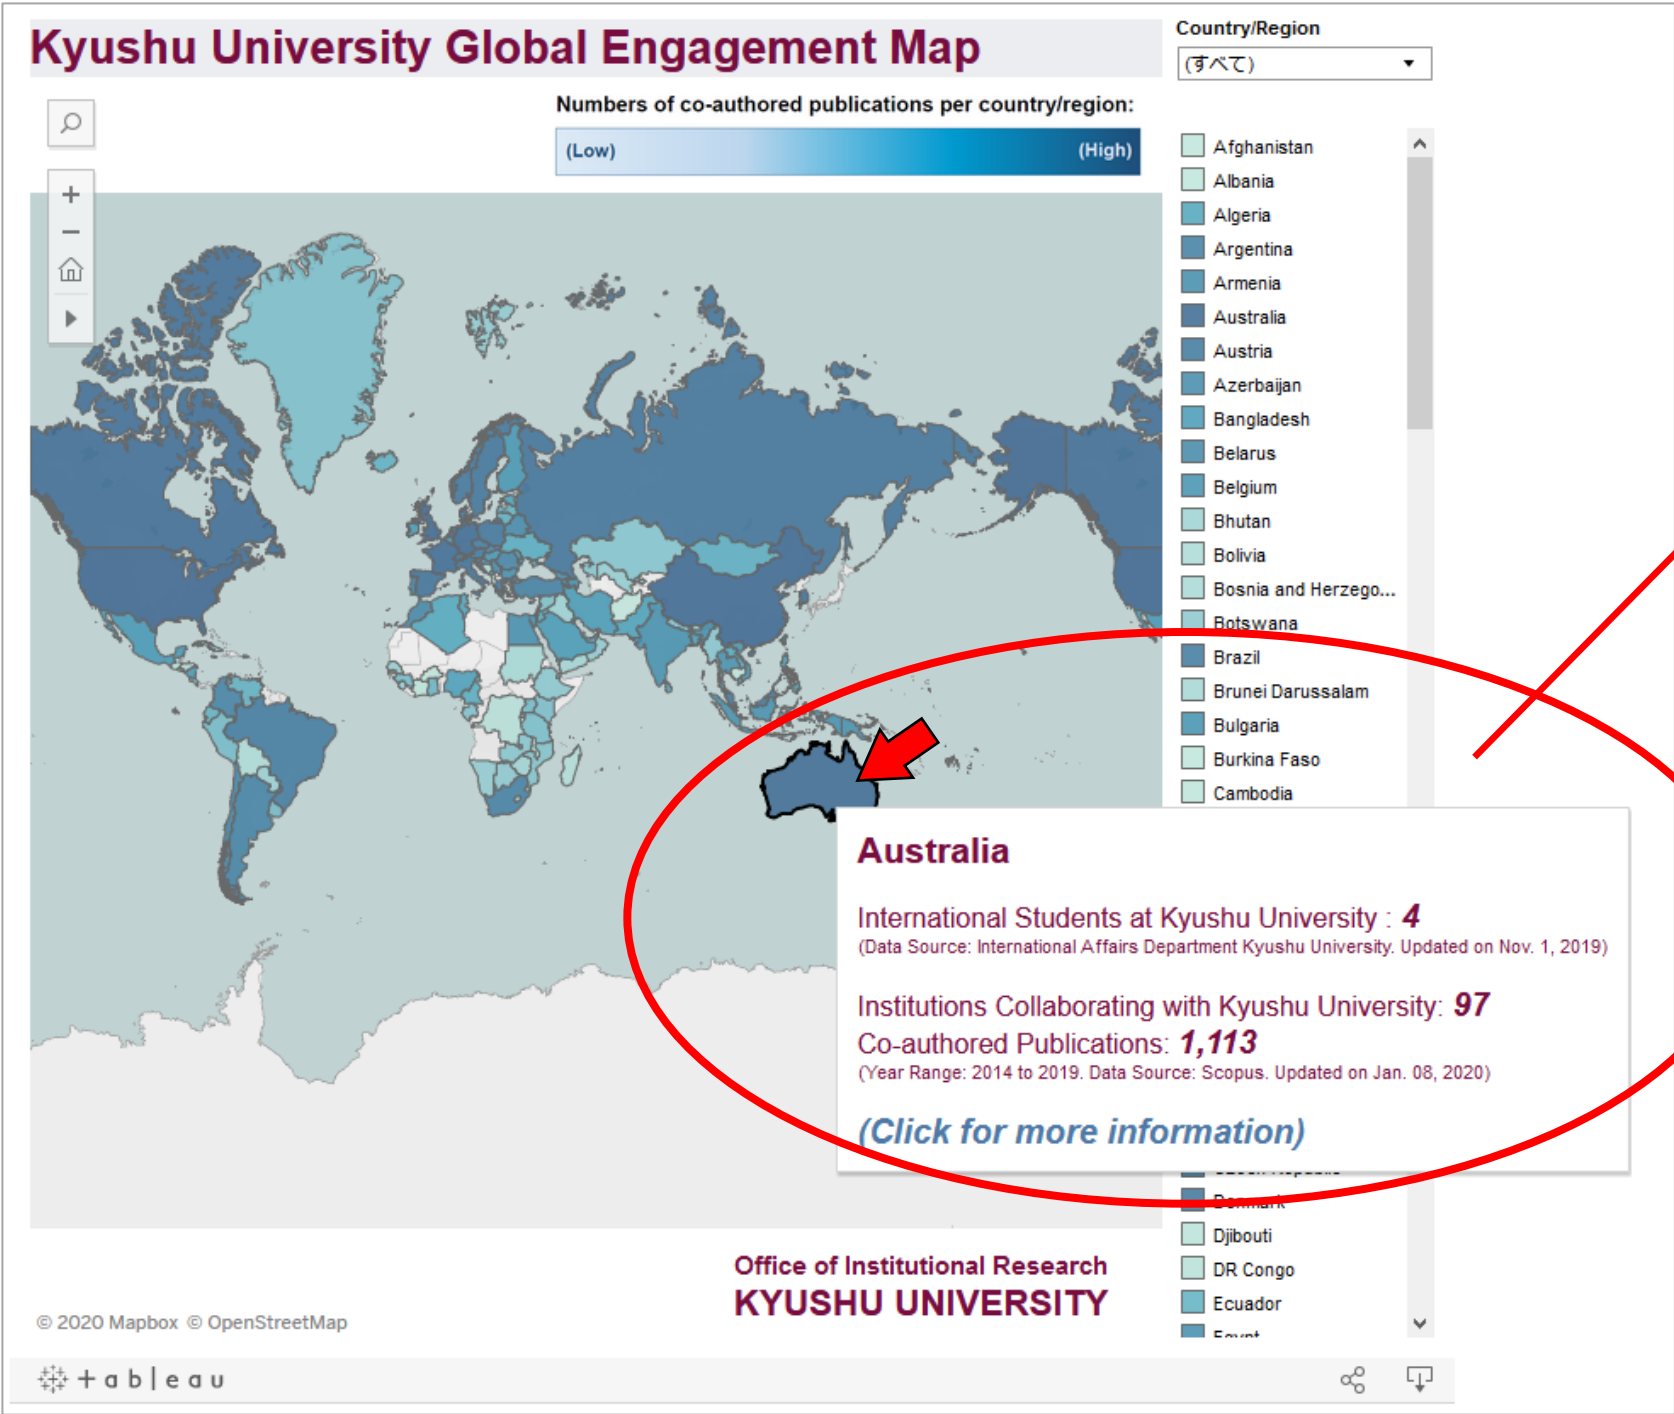

- Zoom in
- Zoom out
- Home zoom
- Mouse function select

From left to right:

Download function: as a pdf or image

Share function: by sending the link or embedding the JavaScript code into your website

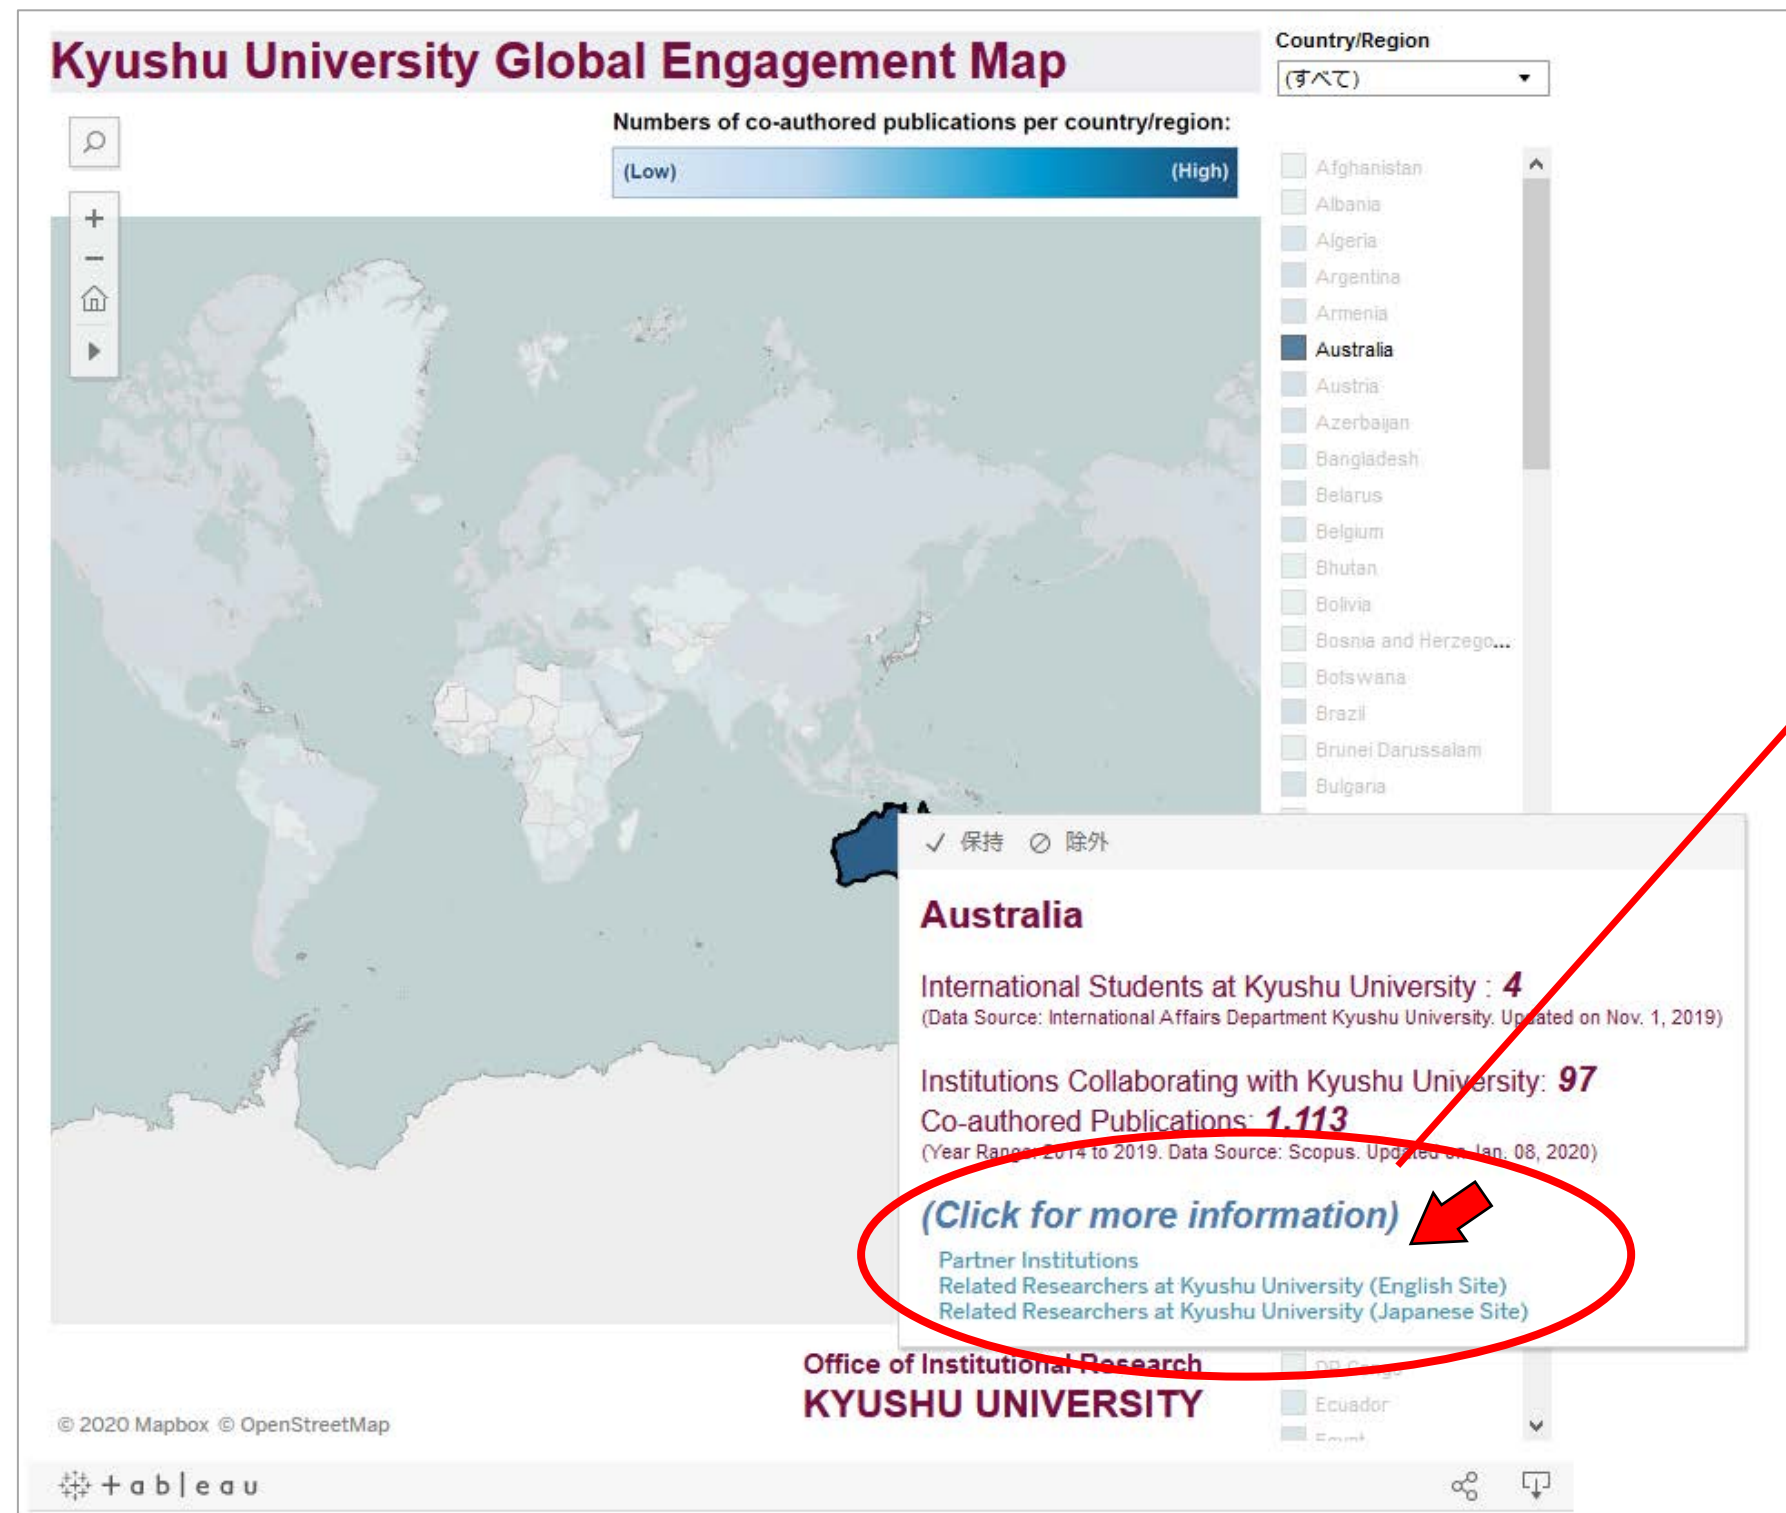

II . Hover your mouse over a country/region:

For example, if you hover your mouse over Australia, the following information will be provided:

- Number of Australian students at Kyushu University
- Number of Australian institutions collaborating with Kyushu University
- Number of Kyushu University’s co-authored publications with Australian institutions in the past six years

III. Click for more information:

If you “click for more information”, the following information will be provided:

- List of partner institutions in Australia
- Information about Kyushu University’s research fellows who are involved with Australia: English site and Japanese site

Read more about “click for more information” on the next page

III. Click for more information:
